After its successful launch in 2022, this action continues in 2023 to support joint initiatives that foster cooperation across different regions of the world, aiming to support the relevance, accessibility, and responsiveness of VET institutions and systems in third countries not associated to the Programme as a driver of sustainable socio-economic development. This action increases the capacity of VET providers, especially in the fields of management, governance, inclusion, quality assurance, and innovation. CB VET improves the quality of VET by reinforcing the capacities of VET staff and teachers as well as by strengthening the link between VET providers and the labour market.

**Read the following details, find partners and apply for Erasmus+ funding to support your project.**

## OBJECTIVES

- Build capacity of VET providers to strengthen cooperation between private and public stakeholders in the field of VET for demand-oriented and opportunity-driven VET interventions;
- Improve the quality and responsiveness of VET to economic and social developments to enhance the labour market relevance of skills provision;
- Align VET provision to local, regional and national development strategies.

## THEMATIC AREAS

Proposals should focus on one or more of the following themes:

- Work-based learning (for young people and/or adults);
- Quality assurance mechanisms;
- VET teachers/trainers professional development;
- Key competences, including entrepreneurship;
- Public private partnerships in VET;
- Innovation in VET;
- Green and digital skills for the twin transition;
- Skills matching with current and future job opportunities.

## ACTIVITIES

Project activities must focus on building and strengthening the capacities of organisations active in the field of VET principally in the third countries not associated to the Erasmus+ Programme. Funded projects will be able to integrate a wide range of cooperation, exchange, communication and other activities, including, for example:

- Creating and developing networks and exchanges of good practice between VET providers;
- Creating tools, programmes and other materials to build the capacity of institutions from third countries not associated to the Erasmus+ Programme;
- Creating mechanisms to involve the private sector both in the design and delivery of curricula and to provide VET learners with high quality work-based experience;
- Developing and transferring pedagogical approaches, teaching and training materials and methods;
- Developing and implementing international (virtual) exchange activities for staff primarily.
